Conference and Event Spaces

**Amphitheatre
The Public Realm**

**Kambri's Website
Virtual Tour**

Amphitheatre

The purpose-built amphitheatre is the place to eat lunch, watch concerts and soak up the village atmosphere on the tiered grass seating overlooking Sullivan's Creek. The integrated stage sits on the re-configured pond itself, with the amphitheatre rising up to Kambri level. The stage also features an Indigenous fire pit to allow for **traditional smoking ceremonies** when appropriate. The Amphitheatre caters for a wide variety of events including **ad-hoc performances and festivals**.

Audiovisual features

- 3 phase and 10A power available for production equipment.
- A portable audio system is available upon request. Please contact us with your requirements to discuss.

Highlights

- A unique floating stage set against the picturesque Sullivans Creek.
- Comfortable grassed raised seating areas
- Convenient access to nearby Kambri Retailers
- Ambient lighting and 477 pax capacity

At Kambri, we value sustainability

Green design thinking

The entire precinct was designed and delivered using the One Planet methodology, a quantitative measure of human demand versus supply of nature. The precinct is operating at 0.6 of a planet per year. University Campuses are using approximately 1.3 planets per year.

Carbon reduction

Across the project, over 31,100 tonnes of CO² was avoided by specifying low carbon materials, and clever design and construction. 40% less embodied carbon was used for the base building, and 50% less for the fitouts.

Carbon smart event guide

ANU Green has updated its [Carbon Smart Event Guide](#), which outlines easy steps to run more sustainable events on and off campus. Events are an important part of the university experience, but they also produce a large amount of greenhouse gas (GHG) emissions. The good news is there are easy steps we can take to have a positive impact.

Many of the suggestions not only reduce our environmental impact but also have lower associated costs while emphasising community engagement.
